ALEXA

ULTIMATE ROMANTIC ADVENTURE

ALEXA is a very private affair. To be shared only with the one you truly love.

“...THE MOST EXCLUSIVE
SINGLE CABIN BOAT - NOT
JUST IN INDONESIA BUT
IN THE WORLD.”

- FINANCIAL TIMES

Life is never as amazing as when love fills our hearts. The special moments we create for our loved ones are life-changing. When you can give a sunset as a present, stay up all night under the southern stars, and share a bottle of wine on the white sands of an uninhabited island.

True to ancient traditions of Phinisi boats in Indonesia, ALEXA is the manifestation of a dream. A dream of ultimate understated luxury, absolute privacy, the free spirit of discovery, unique experiences, and the best of any service you can think of.

A former cargo boat, which has been cruising the seas between the islands of Flores, Komodo, Raja Ampat, Sumbawa, and Sulawesi, has been transformed into the most romantic sailing boat in Indonesia—one cabin only. Just for two.

Traditional lines adopt a modern pure look; aged teak wood is combined with stainless steel and tinted glass. The generous living spaces are filled with antique art and contemporary classics. Silk rugs and primitive sculptures from the islands of Indonesia, the finest linens, and crystal glasses—every detail is chosen with love.

Love is in every meal prepared by our Chef, every day trip planned by our Cruise Director, every smile of our crew, and in the wind that fills our white sails.

YACHT CHARTERS

A person is lying on their back on a white sand beach. Their legs are bent at the knees and held together, with a blue and white patterned bracelet on their right wrist. Their arms are raised above their head, holding a large, clear, spherical crystal. In the foreground, a collection of purple and white crystals, including a large amethyst cluster and a clear quartz piece, are arranged on the sand. Small purple and white flowers are scattered around the crystals. The background shows the ocean waves under a clear sky.

RELAX

Our spa therapist is part of the award winning OAZIA team - winner of the World Luxury Spa Award 2012. All treatments are adjusted to your individual needs and specially designed for ALEXA.

Enjoy a relaxing massage on deck, in room or on a pristine white sand beach.

A romantic couple is silhouetted against a vibrant sunset sky. The man is standing and leaning in to kiss the woman on the cheek. They are on the deck of a yacht, with the rigging and mast visible on the right. The sea is calm, reflecting the golden light of the setting sun. In the distance, dark silhouettes of islands or mountains are visible on the horizon.

DESTINATIONS

KOMODO NATIONAL PARK

Komodo National Park lies in the Wallacea Region of Indonesia, identified by WWF and Conservation International as a global conservation priority area. It was declared a World Heritage Site by UNESCO and is located in the centre of the Indonesian archipelago, between the islands of Sumbawa and Flores.

Komodo National Park includes three major islands: Komodo, Rinca, and Padar, as well as numerous smaller islands, creating a total surface area (marine and land) of more than 1,800 km². As well as being home to the Komodo Dragon—the world's largest living lizard that can reach 3 metres in length and weigh over 70 kg—the park provides refuge for many other notable terrestrial species.

As far as the marine fauna is concerned, Komodo National Park is one of the world's richest marine environments. It consists of over 260 species of reef-building coral, 70 different species of sponges, crustaceans, cartilaginous species (including manta rays and sharks), and over 1,000 different species of bony fishes, as well as marine reptiles (including sea turtles) and marine mammals (dolphins, whales, and dugongs).

DESTINATIONS MOYO & SUMBAWA

The island of Sumbawa Besar is all volcanic ridges, jungle peninsulas and sheltered bays. The southwest coast is where Sumbawa is most spectacular, with pristine white beaches that see amazing surf. There are several less known diving spots along its coast, and probably more to be discovered.

The island of Moyo floats atop the gorgeous azure seas just north of Sumbawa Besar. Most of the island, and the rich coral reefs off-shore, form a nature reserve laced with hiking trails, dripping with waterfalls and offering some of the best diving west of Komodo National Park.

DESTINATIONS

ALOR ARCHIPELAGO

Located to the east of Flores, the Alor archipelago is formed by 20 pristine islands and is becoming famous for its world-class diving, scenic underwater rock formations, abundant fish life, virgin coral walls, and slopes. The main attractions are the seasonal passage of whales and diving with such unique underwater creatures as Mola Mola (Sunfish), thresher sharks, whales, giant groupers, and more.

Cruising the archipelago is pure bliss; most of this huge chain of islands enjoys calm seas and warm sunny weather throughout most of the year. The cruise to Alor will not be complete without venturing deep into the countryside and visiting some of the friendliest and most authentic tribes and traditional villages in Indonesia. Time seems to have stopped here centuries ago, providing a unique experience in our busy world.

DESTINATIONS WAKATOBI MARINE PARK

The third largest marine park in Indonesia. Legendary underwater explorer and conservationist, Jacques Cousteau is said to have called the Wakatobi islands—then known as the Tukangbesi islands—an "Underwater Nirwana".

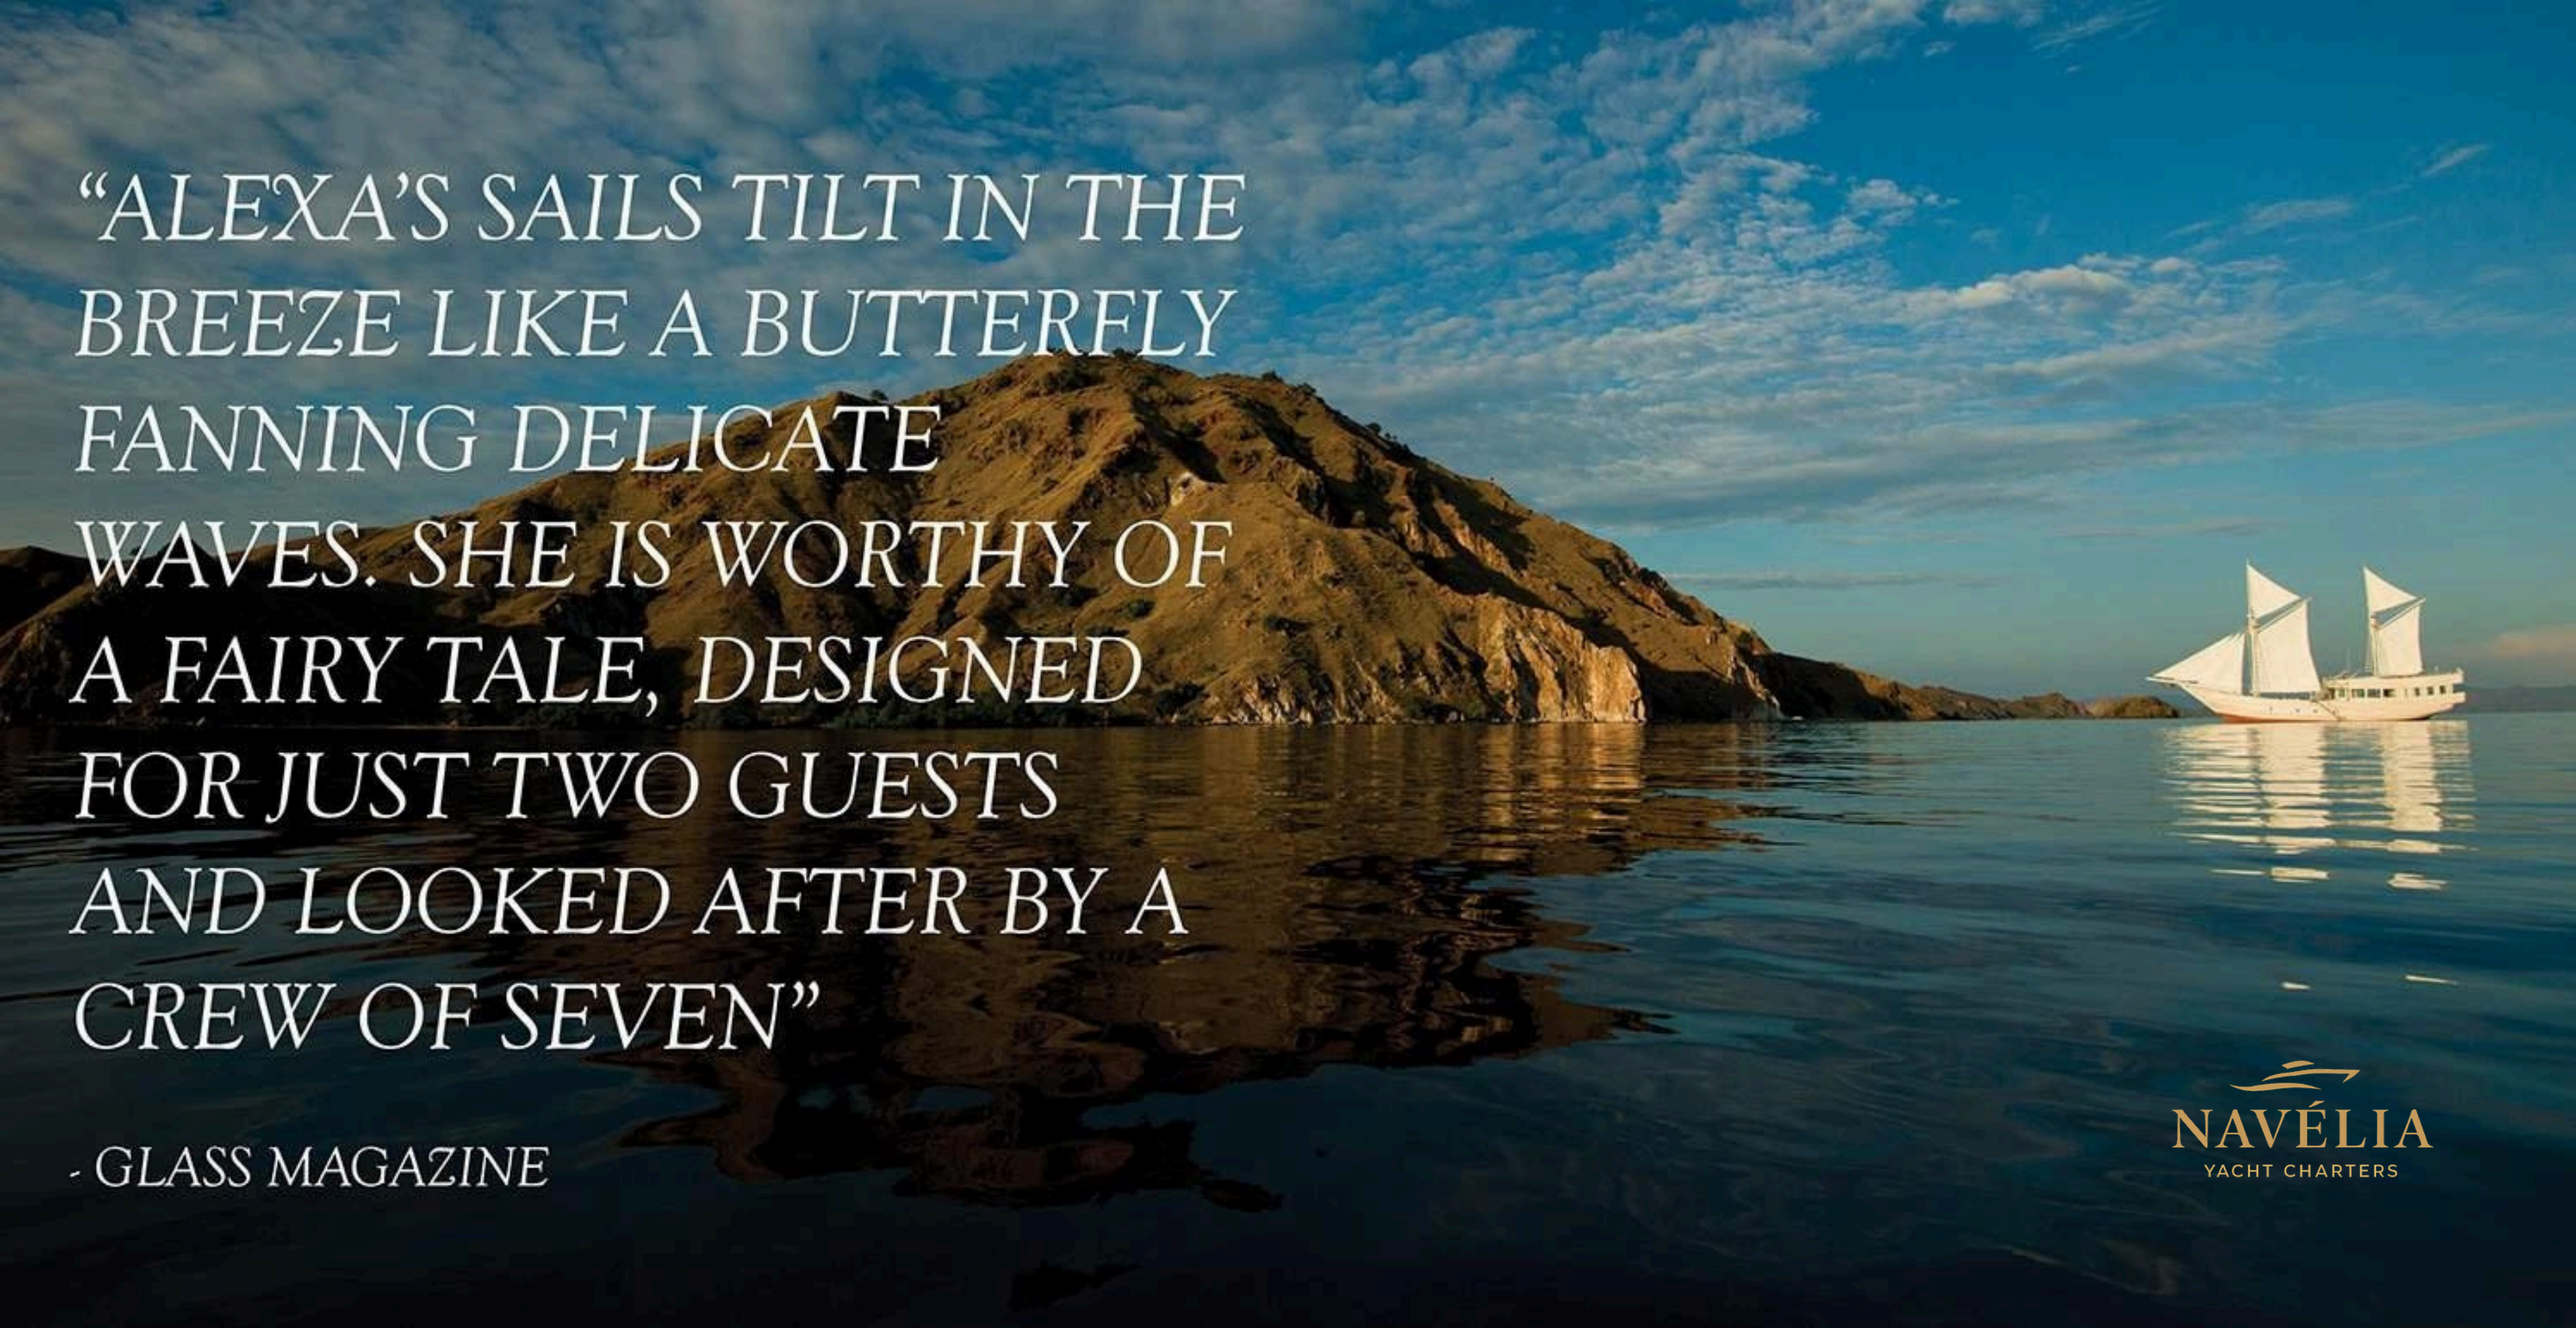

Now a National Marine Park covering the entire Wakatobi District, it comprises a total of 1.4 million hectares, of which 900,000 hectares are decorated with colourful species of tropical coral reefs.

Rising from the depths of the Banda Sea, south-east of the mainland of Sulawesi, the main islands of Wangi, Kaledupa, Tomea, Binongki—Wakatobi reefs are different from others in the region due to dry climate and uplifted limestone. The environment is exceptionally clean due to the lack of soil erosion. Wakatobi is widely recognised as having the highest number of reef and fish species in the world. The islands are also famous as the largest barrier reef in Indonesia, second only to the Great Barrier Reef in Australia. This is the habitat of large and small fish species, the playground of dolphins, turtles, and even whales.
