# Classic Design

No other boat of this shape and style has ever been conceived in Indonesia. Splendour was built on the shores of Ara Beach in Sulawesi, the very birthplace of the country's boatbuilding tradition. Old hands have magically carved out a classic boat with contemporary lines, a warm textured interior, and modern preferences.

*Splendour has been inspired by American 1920 pleasure yachts for leisurely cruises for families and friends who are looking for adventure in comfort and style.*

A scenic photograph of a beach at sunset. The sun is low on the horizon, creating a bright glow and long shadows. The sky is filled with dramatic, layered clouds. In the foreground, a person in red shorts is running on the sandy beach, followed by a dog. The beach is covered with small rocks and shells. The water is calm, and the background shows a forested hillside.

# Activities

# An Experience for Everyone

We have carefully crafted experiences and activities that are perfectly suited to families, friends, and couples. Simply choose what feels right for you. You may wish to challenge yourself or just kick back and enjoy the slow life on board or ashore.

# World Class Snorkeling

All from the comforts of your own yacht. The waters of Indonesia are literally teeming with life. And with so much of that life just under the surface, snorkelling is a wonderfully accessible choice for everyone. Discover corals of colours and formations that only exist in the underwater world. Or come face to face with hundreds of vibrant and varied fish or even turtles, sharks, mantas, and seahorses. Our very able crew shall make sure you and your guests are well looked after onboard as well as underwater!

*An opportunity to swim with manta rays, turtles and even sea horses among coral that is plentiful and alive, in some of the world's most beautiful crystal-clear waters.*

”

# Wildlife Spotting

Slow down and connect with nature. Take the paddle board and go bird watching. See thousands of bats come alive at sunset and shadow the sky. Spot majestic komodos, which seem to be from another era. Feed adorable deer on a deserted beach and see lone birds such as eagles gliding by.

*Above the surface there is a whole world of natural flora and fauna to discover.*

# Hiking & Trekking

Many of the islands we pass and explore are mostly uninhabited, untouched and protected from any sort of tourism-related development. The gentle contours and arid terrain make for ideal explorations by foot. Guided by members of our crew, here is an opportunity for you to 'go where no man has ever gone before'.

*The volcanic islands of Komodo, Lombok, Sumbawa and Bali inspire adventure. Trek for 10 minutes or an hour and discover vantage points that literally take your breath away. This is a country of contrasts and rugged beauty.*

# Wakeboarding

Our custom-designed “skochi” or tender is ready for you. Mornings and sunsets are best to glide on still waters in secluded coves on our wakeboard or a longboard for a gentle ride. Kids love it, and so do beginners. Our able crew is there for you.

*You are in the middle of the Indian Ocean, and yet the crystalline waters around you are so calm and still... ideal conditions for wakeboarding! We offer you the gear and our well-powered tender for a little rush of adrenaline.*

”

*The islands around you are some of the oldest lands to be found in the world - explorers, traders, indigenous tribes and fugitives have all been passing through these waters on the spice trails for the past centuries. So it makes perfect sense that there would be treasure chests to be discovered by the pirates onboard Splendour!*

”

# Treasure Hunt for Kids

Everyone wants to find a hidden treasure under the sea or on a deserted beach! Our specially designed treasure hunts get your kids activated. We encourage kids to use their minds, find new skills, and work as a team if needed! Hunts are as challenging as needed depending on the age and ability of the group. Parents can sit back or come along for the adventure.

*Splendour offers a curated selection of films and documentaries to suit any preference. This can be arranged at the drop of a hat with our very own blend of popcorn and other snacks for your personal cinema paradiso in the middle of the sea!*

# Star Bathing

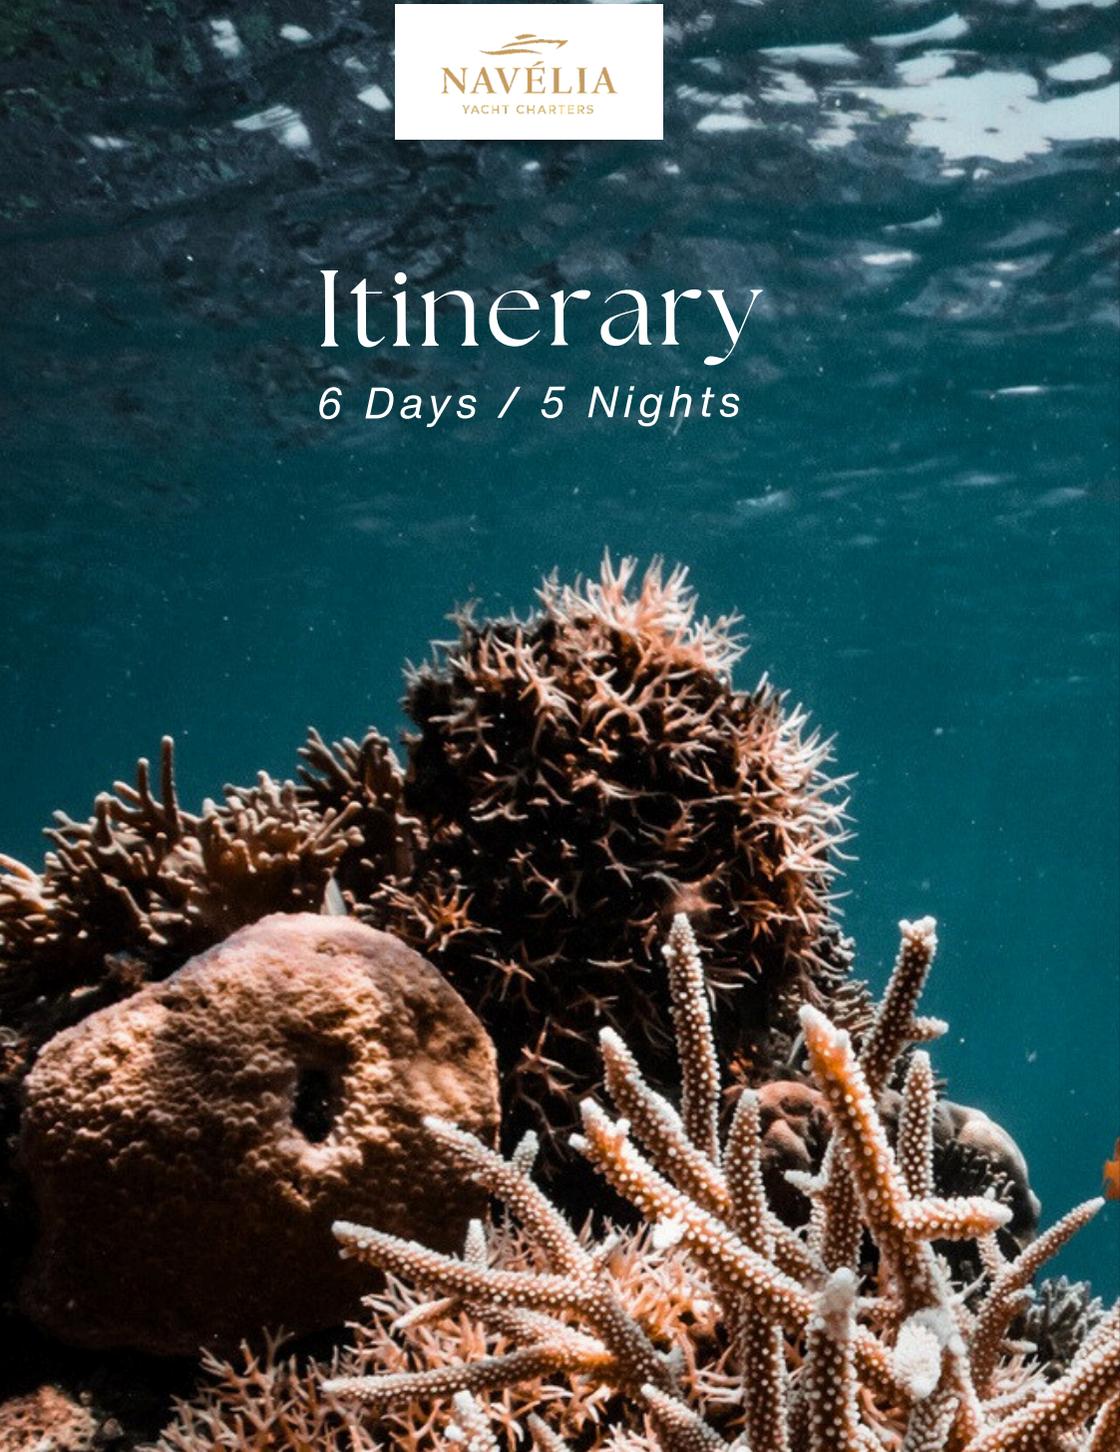

Who can spot Saturn, Jupiter or Mars just after dinner? Take your time. We will bring you blankets, tea and biscuits while you sink into your beanbag. If you want to learn more about the skies, use our iPad app for virtual reality star guidance.
